

Services and Philosophy:

Lakeshore Speech Therapy, LLC is a private practice serving the Cleveland/Northeast Ohio area. Our mission is to provide high-quality, affordable speech and language services to our clients using evidence-based assessment and treatment methods. Our focus is to improve functional communication skills to enhance the lives of the clients we work with and their families.

The family is considered an essential part of the treatment team. It is our philosophy that the client and their family are integral to the rehabilitation process. Assessments and treatment plans include feedback from parents and/or primary caregivers. They will also be guided in understanding their family member's issues and in how to assist with their intervention to carryover goals and new learning at home, school/work and in the community.

We also work as a team with all the members of your family member's education and care, as decided by the family and therapist. We use assessments, reports and observations from other professionals in their life, including, for example, physicians, teachers, aides, psychologists, psychiatrists, educational therapists, tutors, occupational therapists, and physical therapists. We will also participate with other team members to coordinate goals and provide feedback and education, as appropriate. We welcome other team members to educate us in their various disciplines and in their specific work with your family member.

We do not believe in a "one size fits all" approach. This is the reason for the therapists being well versed in a number of techniques and types of intervention for various problems. Techniques include, but are not limited to, direct teaching and skill building with table top activities, floor play and play-based therapy, use of a naturalistic language approach, computer activities, reading/writing activities, role play, and social stories. We provide these services in our office.

Admissions to Speech-Language Services:

Individuals of all ages are eligible for speech-language pathology services when their ability to communicate effectively is reduced or impaired or when there is reason to believe (e.g., risk factors) that treatment will prevent the development of a speech, language, or communication disorder; reduce the degree of impairment; lead to improved functional communication skills and/or functional abilities; or prevent the decline of communication. The decision to admit an individual to speech-language pathology services in a school, health care, or other setting must be made in conjunction with the individual and family or designated guardian, as appropriate. Referral from the individual, family member, audiologist, physician, teacher, other speech-language pathologist, or team (e.g., interdisciplinary, educational management) because of a suspected speech, language, and/or communication disorder.

1. Failure to pass a screening assessment for communication.
2. The individual is unable to communicate functionally or optimally across environments and communication partners.
3. The presence of a communication disorder has been verified through an evaluation by an ASHA-certified speech-language pathologist.
4. The individual's communication abilities are not comparable to those of others of the same chronological age, gender, ethnicity, or cultural and linguistic background.
5. The individual's communication skills negatively affect educational, social, emotional, or vocational performance, or health or safety status.
6. The individual, family, and/or guardian seeks services to achieve and/or maintain optimal communication (including alternative and augmentative means of communication) skills.

7. The individual, family, and/or guardian seeks services to enhance communication skills.

Techniques include, but are not limited to, direct teaching and skill building with table top activities, floor play and play-based therapy, use of a naturalistic language approach, computer activities, reading/writing activities, role play, and social stories.

Upon arrival for your pre-scheduled appointment, you will either bring your initial paperwork packet completed and signed or do so upon early arrival. Forms to be reviewed and signed include the consent for therapy form and the policies and procedures document. Lakeshore Speech Therapy, LLC encourages open lines of communication between private and public schools, homeschool personnel, medical professionals such as therapists, etc. An authorization of release form must be signed by the parent/legal guardian giving consent to share information.

Lakeshore Speech Therapy, LLC. will perform an independent speech evaluation at the time of the initial appointment regardless if one has been previously done by another institution or therapist. We will formulate a plan of care based on the results of the test(s) given and observations made by Lakeshore Speech Therapy, LLC. In the event that insurance will not cover more than one evaluation in the patient's insurance calendar year, it is the patient's responsibility to remit the charge at the time of said evaluation.

In the instance a patient attends speech therapy in the summer and is on an IEP, an evaluation will be waived. Goals on a current IEP are used in lieu of an evaluation. Should a patient choose to continue through the school year, an evaluation will be performed at that time to formulate a plan of care and workable goals.

Lakeshore Speech Therapy, LLC does not discriminate on race, color, national origin, religion, sex, gender, gender identity (including gender expression), sexual orientation, disability, age, ancestry, marital status, or family/parental status.

Discharge From Speech-Language Pathology Services:

Patient/client discharge from treatment ideally occurs when the individual, family, or designated guardian, and speech-language pathologist as a team conclude that the communication disorder is remediated or when compensatory strategies are successfully established, as in the following situations:

8. The speech, language, communication disorder is now defined within normal limits or is now consistent with the individual's premorbid status.
9. The goals and objectives of treatment have been met.
10. The individual's communication abilities have become comparable to those of others of the same chronological age, gender, ethnicity, or cultural and linguistic background.
11. The individual's speech, language, communication skills no longer adversely affect the individual's educational, social, emotional, vocational performance.
12. The individual who uses an augmentative or alternative communication system has achieved optimal communication across environments and communication partners.
13. The individual has attained the desired level of enhanced communication skills.

In some situations, the individual, family, or designated guardian may choose not to participate in treatment, may relocate, or may seek another provider if the therapeutic relationship is not satisfactory. Therefore, discharge is also appropriate in the following situations, provided that the patient/client, family, and/or guardian have been advised of the likely outcomes of discontinuation.

8. The individual is unwilling to participate in treatment; treatment attendance has been inconsistent or poor, and efforts to address these factors have not been successful.
9. The individual, family, and/or guardian requests to be discharged or requests continuation of services with another provider.

Upon completion, self-discharge or termination of speech therapy, Lakeshore Speech Therapy, LLC will write a discharge note and mail it. Extra copies of previously distributed evaluations, progress notes and/or discharge notes will be provided upon request. Should the patient request information be sent to

another provider, school or medical professional on their behalf, an authorization of release form must be either on file or signed.

Client Progress Reports:

Progress may be reported every three to six months to the client's family and/or school district and referring physician. Progress is comprised of data recorded from individual therapy sessions. Progress reports are written and delivered on a quarterly basis.

Termination of Services:

Lakeshore Speech Therapy or Clients/Families can decide to terminate services at any time or for any reason. Family satisfaction is vitally important to our company. Please disclose any questions, comments, and concerns, at any time so that we can address these as soon as possible. At the reporting period and/or termination of therapy services, a client feedback form will be provided in order to obtain satisfaction information. A client is discharged from speech-language therapy services when goals are achieved or due to a no call/no show for three (3) consecutive scheduled appointments.

Credentials:

The Speech- Language Pathologists who work for and are employed by Lakeshore Speech Therapy, LLC are accredited by the American Speech-Language-Hearing Association (ASLHA) and maintain a valid license from the Ohio Board of Speech Language Pathology and Audiology.
